

EVERYDAY LEADERSHIP

When great people make
amazing things happen

What is 'Everyday Leadership'?

The word 'leadership' is largely synonymous with senior personnel who have the authority, influence and power to lead their organisations from positions at the top. There is, however, an alternative school of thought that perceives truly effective leadership as something that happens throughout an organisation and stems from people who have passion, clarity and unwavering commitment to what they do and in what they believe.

This is **EVERYDAY LEADERSHIP**.

Everyday leaders...

- Believe that they can always make a difference, regardless of their perceived level, role or status
- Are highly aware of their values, motivations, drivers and impact
- Are curious and have the desire and ability to support others

Equally, everyday leaders thrive when...

- Their learning is supported by a network of 'great people'
- Their learning environment is safe, trusted and relevant
- They can apply their learning back into their work context

Developing 'everyday leaders'

Everyday leadership development programmes are built around the central themes in the diagram below:

Programme modules...

There are six core
modules in any
programme, which are
delivered over a period
of 6 to 9 months

What does leadership mean to you?

Exploring your context; knowing your culture

Knowing self

Knowing others

Connecting concepts with context

What does leadership mean to you now?

**“ Education is
not the filling of
a bucket, but the
lighting of a fire.**

W.B. YEATS

HOW WILL IT WORK?

Whilst the exact format of an Everyday Leadership Programme will depend on your specific needs, the overall structure is informed through extensive applied practice and doctoral research.

All programmes will incorporate:

Facilitated ‘guided learning’ through a bespoke combination of virtual and ‘face-to-face’ sessions

Ongoing mentoring support

Applied work-based learning resources

How much will it cost?

Again, this will depend on your exact need and whether it is an individual or organisational fee.

As a guide, a 6-month Everyday Leadership Programme for 6 people could be delivered for an investment of around £5,000.

Great people make amazing things happen

A large circular graphic on the right side of the slide. It features a low-angle shot of tall evergreen trees reaching towards a bright blue sky with wispy white clouds. The text 'Can we really manage change in a world where change is everywhere?' is overlaid in white, sans-serif font.

Can we really manage
change in a world where
change is everywhere?
